Course Objective

- This world-class PgMP® training course will help Program Managers translate the International Standard for Program Management into real-world technologies and real-world applications. Over the course Program Managers will review the entire Program Management process from beginning to end, and improve their skills in six major areas of focus—including Governance, Prioritization, Escalation, Resource Management, Benefits Realization, and Stakeholder Management. Trainees will also learn from practicing Program Managers, share real-world issues with the group, develop action plans, and learn Program Management best practices.

- PgMP® training course provides the information that you need to prepare for PMI's credential, the Program Management Professional (PgMP)®. At the same time, it gives you the knowledge, in an organized and experiential framework that you need to improve your program management competency and your ability to make a contribution to program success.

Course Methodology
