Lines 1 to 6 in the table below consist of an assertion statement and a reason statement. For each line identify the appropriate option, from options A to E, that applies. Each option can be used once, more than once or not at all.

Option	Assertion	Reason
A	True	True AND the reason explains the assertion
B	True	True BUT the reason does not explain the assertion
C	True	False
D	False	True
E	False	False

	Assertion		Reason
1	An appropriate entry for Section A would be the business area of Facilities (property and accommodation).	BECAUSE	The Benefits Realization Plan should detail when each benefit will be realized with appropriate review milestones.
2	It would NOT be appropriate for entry 3 to state if the management reports will be produced per shop or per region.	BECAUSE	The measurement techniques to be used to assess benefits should be documented in the Benefits Realization Plan.
3	Entry 4 should include a requirement to measure current levels of staff training.	BECAUSE	Checking against a baseline measure of performance is appropriate where a capability is changed.
4	The relevant BCMs should work with the shop managers to ensure that the agreed target described in entry 4 is realized.	BECAUSE	BCMs should develop the Benefits Management Strategy on behalf of the Programme Manager.
5	Add a representative from the shops to entry 5.	BECAUSE	A Benefit Review should include individuals who are able to comment on the outcome's impact on operational efficiency.
6	Add a Benefit Review to entry 6 to assess the success of the temporary training centre at the time of its opening.	BECAUSE	Benefit Reviews should assess realization of benefits as soon as the capability has been delivered.
